

OPERATION TEAMMATE

"COMMUNITY IS A TEAM EFFORT"

27 March 2016

Mr. Ogden,

I wanted to personally thank you for allowing us to spend some time with your team and for showing our Operation Teammate group a terrific time during your game day experience on March 20th, 2016. My daughter Bethany couldn't say enough about your teammates on the way home, and all of the families provided overwhelming positive feedback. In fact, both my daughter and I were tremendously impressed with your message to the kids on determination and the importance of post-secondary education. Your delivery and personal interaction with the Operation Teammate group was spot on and drove home the aspect of giving back when possible.

Thank you again for showing support to the Operation Teammate mission and for allowing us to experience your team's game day routine.

Please keep in touch and don't hesitate to let us know if you ever need anything.

Furthermore, please pass on our sincere appreciation to Mr. Turner and Mr. Resignalo; everyone was great and we consider it an honor to interact with such a great team!

Very Respectfully,

Timothy D. Montjoy, National Director
